

**MORE FROM WOOD.**

Feelwood surfaces  
deliver natural elegance  
at sushi restaurant

Oderzo, Italy

Architect Roberto Santin used EGGER's embossed-in-register (EIR) Feelwood decorative surfaces to design the Japanese Koi restaurant in Oderzo, Italy. Using Natural Halifax Oak (H1180 ST37) on the tables, reception counter and wall cladding creates a cozy natural ambiance. The space gains elegance and drama, thanks to the complementary Onyx Grey (U960 ST9) decor and creatively-designed lighting features.

Guests at Koi encounter natural elegance the moment they walk in the door, with a striking reception counter created with Natural Halifax Oak (H1180 ST37) and Onyx Grey (U960 ST9).

Dining room tables made with Natural Halifax Oak (H1180 ST37) are strikingly authentic.
