

MORE FROM WOOD.

Egger Forestry

A team of forestry experts offering professional harvesting and marketing services to forest owners and agents.

Committed to sourcing wood from sustainably managed forests in North England and Scotland in compliance with the UK Forestry Standard.

Experienced in managing all types of harvesting operations, tailored to meet the client's requirements, experts provide services to assist achievement of long-term goals.

Working with experienced and professional harvesting contractors who use state-of-the-art equipment ensuring all operations are safe and efficient.

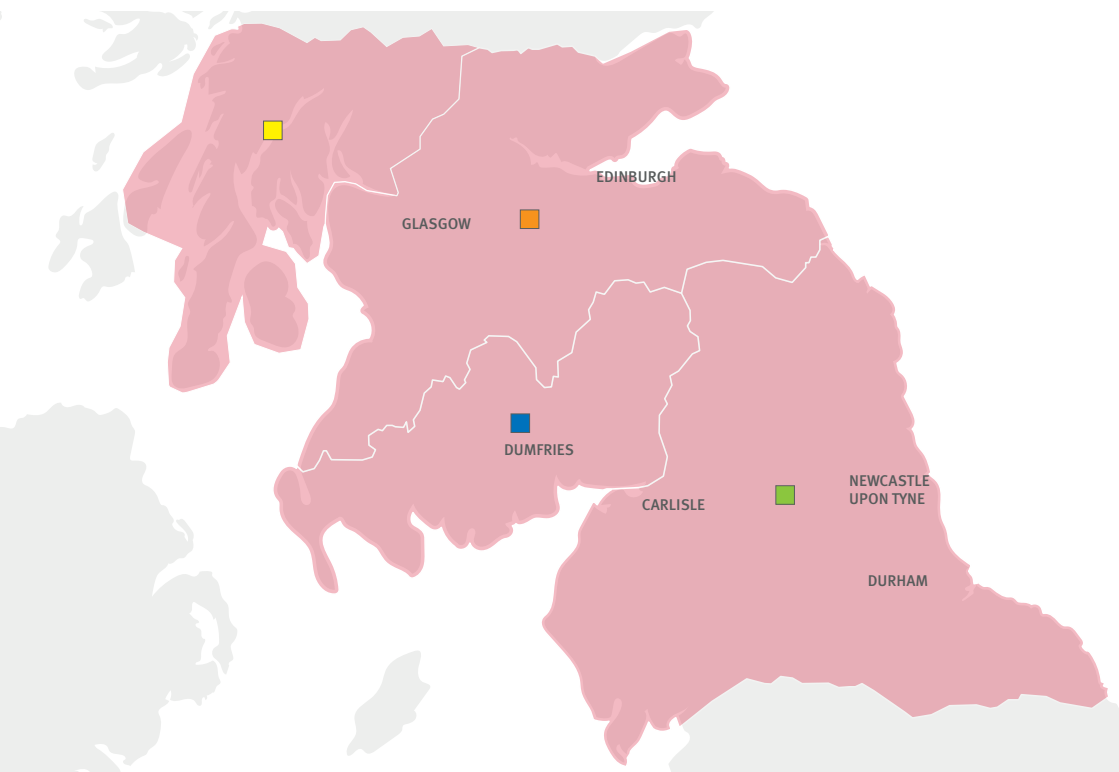

EGGER Forestry is committed to sustainable production practices with a focus on safety, quality and environmental management excellence.

By-products from the forest and sawmill are used by EGGER (UK) Ltd to produce chipboard panels for the furniture, interior design, and housebuilding industries.
