# Expressive Woodgrains

A clear trend that defined 2022 was sustainability. With consumers becoming more conscious of their environmental impact, we have seen this movement emerge in the furniture and interior design market when it comes to decor selection.

A mix-and-match approach to design supports the transition toward more natural reproductions. This became apparent during the pandemic when people started living in a modular way.

We have responded to this demand by introducing a selection of Expressive Woodgrain reproductions that offer the desired natural and authentic finish. This is in addition to our extensive, international EGGER Decorative Collection. The new decors are perfectly suited to create designs that have impact and can be used for feature walls or units, adding a focal point to the room.

All decors shown and mentioned are reproductions.

# H1371 ST19

## Grey Beige Rift Oak

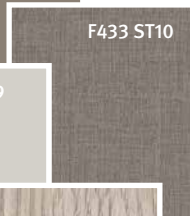

The calm overall appearance of H1371 Grey Beige Rift Oak gains liveliness through the linear pore of different widths. Combinations with warm browns and grey accents creates an authentic design.

## H3180 ST37 Brown Halifax Oak

H3180 ST37 Brown Halifax Oak provides a cost effective solution to real wood or veneer, without the price tag. The contrasting colour tones combines perfectly with fresh, green decors especially U604 ST9 Reed Green.

# H3422 ST19 Brown Grey Lacquered Pine

Blue tones continue to go from strength to strength and coordinate well with H3422 ST19 Brown Grey Lacquered Pine. Expressive and tactile, this woodgrain has a matt and supermatt quality in the finish. U780 ST9 Monument Grey and U968 ST9 Carbon Grey both have blue tints and work well with this woodgrain.
